Drive your organization forward by learning about how to leverage the Microsoft Visual Studio Application Lifecycle Management (ALM) solution. Join Microsoft and Northwest Cadence as we share our knowledge of how to leverage Microsoft's ALM strategy and toolset to take your team and the software they create to the next level. We will dive into how Visual Studio 2010 Ultimate and Team Foundation Server will give you the process efficiency, automation, and standards-driven development capabilities that will increase productivity and decrease costs.
