

Scrum Health Check

During your Scrum Health Check, Northwest Cadence will help identify:

- how well your Scrum Teams are at **delivering value** to your business
- how effective your Scrum Teams are at **dealing with impediments** that limit value

Scrum Health Checks are conducted in partnership with you. Upon completion of your Scrum Health Check, we will provide improvement recommendations on how your Scrum Teams can increase the overall value delivered to your organization. Our aim is to help you move your teams towards high performing Scrum teams by providing concrete, actionable steps you can implement immediately.

Scrum Health Check Program Details

Price: \$1,700.00

DURING **Understand your priorities**, especially any pain points or areas of concern. We'll consider both your current needs and future goals, and how agile processes can help.

Discover and document the opportunities for improvement

POST **Provide a detailed report of all opportunities**, including recommendations and action plans where needed.

Answer questions relating to the documentation provided, ensuring your team has the resources needed, and has a clear understanding of the delivered materials so you can be on your way towards high performing Scrum.
